

## KILLER'S CARESS

Imagine someone despising you all the time, what would you do?

Imagine someone screaming to give you orders, how would you react?

Imagine someone controlling you as if you were his possession, where would you get away?

Imagine your make-up had been made by a clenched fist, how would you express your pain?

All these suppositions and thoughts turn into reality every day, accordingly too many women are killed by her husbands or ex-husbands, who promised them eternal love, love with a killer's caress.

### **WOMAN!!**

You're courageous

You're able to control your life

Don't feel alone, rely on us

Don't pity yourself and go away from your battering

Write your own life, it's time to live

**Domestic violence is a problem for all of us, so these resolutions need a tightening of the domestic violence laws.**
